

DO NOT allow cell phone use on airline flights. It is critical for passengers to have some peace and quiet from noisy blabbering of people who do not understand that their "prIvate" talk is very public, because they always talk so loudly. It is an extreme nuisance when people do not respect the need of other passengers to have a quiet environment for some rest. No business can be so important that it has to disturb public peace. Considering the fact that, before the days of the cell phone, people had absolutely no trouble traveling without chattering constantly, it is completely unnecessary and counter to the public interest to allow the use of cell phones in the confined spaces of an aircraft cabin. KEEP THE CELL PHONES TURNED OFF DURING ALL FLIGHTS.
